

With declining enrollments, fiscal challenges, college affordability concerns, and staffing shortages, there is a compelling need to increase operational efficiencies of student enrollment and financial aid services.

## Transforming student enrollment with QDox

Students and enrollment staff alike should benefit from intelligent document processing (IDP) and paper form automation (PFA) today. QDox is Quantiphi's solution accelerator for Document Processing. It is a deep learning based solution that processes documents across unlimited templates and constantly improves with feedback.

## Through QDox, Higher Education Institutions can

Imagine an admissions team that eliminates hours of manual review of received documents and expedites the verification of documents

Imagine a financial aid staff that doesn't have to process thousands of verification documents manually, and can expedite the financial aid process

Imagine faster decision making to short-list applications using analytics on top of data extracted from applications, leading to a quicker enrollment process

Imagine significant cost savings by automating repetitive tasks related to updating applicant records in database thereby saving valuable time

### Key Use Cases

#### Enrollment Services

- Processing Transcripts, Admissions Forms & Student ID with minimal staff intervention
- Processing Immunization records, Transfer documents etc.

#### Business Services & Administration

- Preventing Credential Frauds
- Student Record Request Management

#### Financial Aid Department

- Processing Scholarship Applications
- Loan Documents Processing & Verification

## QDox Core Features

Key-Value Pair  
Extraction

Classification of  
Documents

Image detection  
& Extraction

Table/MultiFormat  
Text Extraction

Workflow  
Automation

Customized UI

Insights &  
Reports

PII Masking

## Success Stories

### Automated Processing of College & High School Transcripts

#### About the Institution

Customer processes over a million documents which includes transfer documents, undergraduate documents and transcripts. For the custom solution to extract data from transcripts with the necessary accuracy, manual effort was necessary. Updates in the transcript format were tedious and created a significant managerial overhead.

#### Solution

Quantiphi provided Qdox to extract all defined academic records and student details in a structured format for all types/templates of transcripts. It was easy for the end customer to import the academic data into their system and populate student details automatically with the extracted information.

#### Business Impact

- **80%** reduction in manual efforts for preprocessing & re-training
- **65%** reduction in costs
- **95%** accuracy in extracted entities

## Engagement Journey

### Step 1

Rapid Sample  
Document Testing (1-2  
week)

### Step 2

QDox Setup and  
Implementation

### Step 3

QDox Production  
Deployment & Support

Quantiphi is an award-winning AI-first digital engineering company driven by the desire to reimagine and realize transformational opportunities at the heart of business. We are passionate about our customers and obsessed with problem-solving to make products smarter, customer experiences frictionless, processes autonomous and businesses safer.
